

IPI Release Notes

IPI Content Release 2011.6 (for Lucidiom APMs and Photo Finale) September 2011

APM Kiosk Installer Contents:

This installer contains folio templates for use on the Lucidiom APM kiosk. *These products are designed to be produced in-house and will not offload to a third-party lab.* If there are products included in this installer that your lab is not able to produce in-house, they should *not* be enabled via the Setup Wizard.

Prerequisites for Installation:

1. Your APM kiosks are licensed for Folio creative products (books, calendars, etc.).
2. Your APM and Lab 50 software are up to date as well as your Photo Finale Website (APM version 7.6.0.14 and Lab 50 7.5.2.4).*
3. You have installed Lucidiom's 2011 content packs, which include "Content Release 2011.1" discs 1-3 (released in February 2011), or the 2010 Content Releases 1-3 and the 2011.1 Content Updater.

**Note: For full instructions on installation of the latest APM and Lab 50 software packages, please login to <http://www.lucidiom.com/support> using your APM Network Credentials.*

How to Install on the APM:

This installer contains several content packages and products. When you run the installer, all of the packages will be installed. There are several new folio products in the installer, so you will need to copy the **apmconfig_products.xml** file found within the APM folder bundled with this package to **c:\APM** on each of your kiosks as well as to **C:\Program Files\Lucidiom Lab 50 7.5\Tools\PrintServer** on your Lab 50 machine. There are also new product groupings for these products, so the **apmconfig_productgroups.xml** file will also need to be copied to **c:\APM** on each kiosk, but it does *not* need to be copied to your Lab 50 machine.

How to Enable IPI Content on Photo Finale

1. In Lab 50, access Store Management > Product Catalog.
2. Expand the "Supplier Catalogs" menu, and then press the **Refresh** button. Open the "IPI Content 2011" folder to view the new products available with this release and to enable them. If the catalog does not appear, please contact your sales person to request the catalog is added to your account.
3. Right-click on the products in the IPI Content 2011 supplier catalog, and select to enable them if they are currently disabled. A green light will appear next to each enabled item.

4. Next, in your active catalog (your active catalog will have a blue circle/check icon), right-click on the category (or create a new one) to which you'd like to add the products and select "Add Products." Select the desired product(s) from the "IPI Content 2011" Supplier Catalog.
5. Once you have added the product(s) to your active catalog, adjust prices, names, etc.
6. Remember, changes made to your Photo Finale website can take up to 30 minutes to appear on your live site.

****Note:** This content is available only for sites that have been migrated to the Photo Finale version 7 or 8 platforms. If you are running an older version, please contact your regional sales representative to schedule your website migration.

Product Details

All Products included in this release:

** Denotes products that include multiple design options within the selected product.

Wall Décor > Framed Prints			
Product ID	Name	Actual Output Size	Intended Print Size

Posters			
Product ID	Name	Name	Product ID
** 6215	18x24 Poster	24x18 Poster	** 6217

Product ID	Name	Actual Output Size	Intended Print Size
** 4500175	11.5x11.5 Metal Wall Print	11.75x11.75	11.75x11.75

****Note:** Per IPI specifications, the consumer photo is output as an 8.25x8.25 centered on the selected background pattern for the Metal Wall Print product.

To produce the product, retailers will print just the photo portion for the smaller metal foreground piece and pair it in production with the correct background. Backgrounds are provided by IPI, or can be downloaded here: http://www.lucidiom.com/share/customers/ipi/metal_backgrounds.zip
