

Lucidiom Release Notes

2010.3 Creative Content Release October 2010

The New Features:

- **New Calendar Products** – Everyone needs a calendar heading into the new year and now you can offer them in 10x5, 8x4, and 14x11 sizes in addition to the expansive list already available in previous releases from earlier this year. The 10x5 and 8x4 calendar sizes are designed for single-sided printing, which makes them great products for any lab. The 14x11 calendar is designed to be duplexed, just like our existing 11x8.5 calendars.
- **New 2011 Calendars** – “Starts with” calendars for every month in 2011 are now available in every size and design available on the APM. See the product listing at the end of these release notes for a full listing of all available calendar sizes.

Improvements:

- **Revamped Notepads** – The notepad designs have been split into 1-to-1 designs to fully showcase the available options.
- **Revamped 4x8 and 8x4 Holiday Cards** – The designs have been split into 1-to-1 designs to fully showcase the available options.
- **New Calendar Icons** – The breadcrumb and product thumbnails have been redesigned to give your software a mini-facelift before the holidays.
- **Old Calendar Removal** – Removes old calendar files to free up hard drive space for new content.

Fixes:

- Corrected 2012 calendar grid for the 12x12 calendar.
- Removed reference to background files no longer in use for some designs.

Prerequisites for Installation:

This release is an **update** to the base content release (2010.1 and 2010.2). Before running this 2010.3 update, you must have already installed the 3-disc set labeled “2010.1” (released in July 2010 along with APM v7.5), content release “2010.2” (released in August 2010), and any applicable locale-specific content overrides, such as UK, Canada, or Global overrides.

How to install:

Run the Lucidiom Downloader (more info: www.lucidiom.com/support) and select Content 2010.3 to download. Once downloaded, unzip/extract and run the Setup.exe.

ID	Name	Description	Date Posted
193	Creative Content, 2009.1 (Wrapping Paper)	Creative Content 2009.1, Wrapping Paper Add-On	6/10/2009

428	Creative Content, 2010.2	2010.2 Content Updater. Requires APM 7.5 and 2010.1 content pre-installed. [MUST USE WINZIP...	8/3/2010

Additionally, if you have previously installed any of the overrides for the UK, Canada, or Global calendars, you will need to also install the overrides packaged in this release. The previously installed overrides will not need to be installed again separately. The overrides for the calendars are packaged within the Release 2010.3 folder that is created when you extract the downloaded zip from the Lucidiom Downloader. To install the calendar overrides, open the **Calendar Overrides** folder and then the customizer folder appropriate for your setup. Run the *Setup.exe* file as done previously to complete your customization.

Product Details:

Changes have been made to the recommended print settings for processing 8x6, A5, and 14x11 duplexed calendars on the EQ series printers. As shown in the screenshot below, please note that the option for *"Is the last page flipped?"* has now changed to be set to disabled. This change is applicable for the 8x6, A5, and 14x11 duplexed calendars only. For more information on EQ printer settings, please see the Lucidiom Documentation site at <http://www.lucidiom.com/Documentation>.

Product Settings

8x6 12-Month Calendar

Product Settings
