

EQ Gifting

Retailer Price List

Release date: Oct 17, 2011

Release name: EQ Gifting 2011.3

For use in current software versions or higher:

- APM 7.5.1.56, US
- Photo Finale 7.1.2, US

The purpose of this document is to provide a synopsis of current wholesale pricing, estimated turnaround times and shipping costs for EQ Gifting products. Please refer to publication dating to ensure that you have the most recent information available. All information is subject to change and supersedes previous publications.

EQ Gifting Program Overview

The EQ Gifting program is designed as a standard ordering module for retail owners of a Lucidiom APM version 7.0+ kiosks. Currently, single image photo gift products are available as standard. And now, printed products are available optionally.

It works like this:

1. **SELL.** Offer your customers hundreds of photo gift product choices conveniently from your in-store APM kiosk or your online Photo Finale website. There is something for everyone!
2. **MANAGE.** Lucidiom's EQ Gift Tracker will ensure that your orders are routed, produced, and return-shipped to your store automatically!
3. **PROFIT.** Lucidiom manages the suppliers and monthly invoicing so you don't have to!

An internet connection is required for each APM kiosk running EQ Gifting. The Retailer is responsible for supply and management of local internet connections. Retailers must complete the EQ Gifting Application before being granted licensed access to the EQ Gifting product array. EQ Gifting product gross margins may vary by product, region, and retail selling price. Shipping costs vary by location and will be an additional charge per product or order. EQ Gifting orders will be invoiced monthly by Lucidiom. Customer accounts must remain in good standing to maintain subscription. All terms subject to change without notice.

How to Set Shipping Settings on the APM Kiosk

Retailers are able to determine shipping settings within the APM kiosk Setup Wizard. Retailers can allow customers to ship their order to their home, or pickup in store. If picking up in store, three options are available: 1. Do not charge customers for in-store delivery; 2. Charge customers the same rate per product as with ship to home; 3. Charge the customer a flat handling fee.

1. Choose APM Add-on Components
2. Select Gift Products
3. Apply the in-store delivery policy

Customer Order Tracking

Retailers can track customer orders online via the EQ Gift Tracker portal. A valid email address and password is required to access your store account and customer orders. www.eggifttracker.com

Track orders by store in real time. Sort by order number, name or date.

Lucidiom EQ Gifting Product List for APM Kiosk and Photo Finale Web, as of October 2011 (EQ Gifting version 2011.3)
